EDUCATION

Memorial University of Newfoundland — **St. John's, NL**
Bachelor of Science (Honours) in Computer Science — Graduated: **August 2026**
Concentration: Artificial Intelligence — **Credential:** Data-Centric Computing
GPA: 3.77/4.00 — **Cumulative Average:** 86.4%

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, TypeScript, Java, C++, C, PHP, R, SQL
- **Web Development/Frameworks:** React, Node.js, Express.js, REST APIs, HTML, CSS, Tailwind CSS, Vite
- **AI & Data:** scikit-learn, TensorFlow, spaCy, Pandas, NumPy, Matplotlib, Machine Learning, NLP, Data Analysis
- **Databases & Cloud:** PostgreSQL, MySQL, SQLite, MongoDB, Firebase, AWS
- **Tools & Practices:** Git, GitHub, GitLab, Linux, Postman, Quarto, Jupyter, Mocha, unittest, Agile, Unit Testing
- **Certifications:** AWS Certified AI Practitioner, AWS Certified Cloud Practitioner

WORK EXPERIENCE

Research Software Developer – Department of Psychology — **(November 2025 – April 2026)**
Memorial University of Newfoundland, St. John's, NL

- Built a reproducible R/Quarto site for a living meta-analysis, linking study data and statistical analysis to the report.
- Worked with research data, effect-size calculations, multilevel meta-analysis, model outputs, and visualizations.
- Presented results in technical and plain-language formats, with outputs and visualizations regenerated as needed.

Web Developer – Co-op — **(January 2025 – August 2025)**
Target Marketing & Communications Inc., St. John's, NL

- Developed and maintained production websites across multiple client projects and technical environments.
- Worked with APIs, JavaScript, React, Python, and data-processing workflows to support client requirements.
- Collaborated with developers, project leads, and account teams to deliver tested production-ready updates.

Web Developer – Department of Emergency Medicine — **(September 2025 – December 2025)**
Memorial University of Newfoundland, St. John's, NL

- Maintained and improved the AERO React website, fixing issues and implementing requested updates.
- Managed Vercel deployment and coordinated content, interface, and technical updates with the project lead.

PROJECTS

Nature's Palette – Honours Thesis — *Node.js / Express / MongoDB / REST APIs / R*

- Built a language-agnostic REST API for programmatic access to biological spectral datasets and metadata.
- Developed an R package for dataset search, metadata access, and data downloads in reproducible workflows.
- Integrated the API with the existing Node.js, Express, and MongoDB platform while preserving the web application.

AI Employee Scheduler — *Python / scikit-learn / spaCy / Streamlit / NLP / Machine Learning*

- Built an AI scheduler that converts natural-language employee requests into structured scheduling constraints.
- Combined scikit-learn, spaCy, and rule-based logic for intent classification, conflict resolution, and shift assignment.

AWARDS

- Faculty of Science Dean's List 2024–25
- Faculty of Science Dean's List 2023–24
- International Undergraduate Academic Award (IUAA) 2023–24
